Jetfan 85

AIR DRIVEN AND STEAM DRIVEN
GAS FREEING FAN

Description

The Jetfan 85 is the air driven option of the Jetfan 125 Its robust design has been proven with in excess of 8000 units operating in the most arduous conditions from VLCC's to continuous operation on board FPSO's. The high velocity deep core penetration improves gas freeing efficiency and dramatically reduces operation times. It is light enough to be easily manoeuvred into position by one man using the fan trolley and is simple to convert from penetration to extraction.

Benefits

- Type Approved by BV
- Deep air penetration
- Low maintenance
- Powerful and therefore quick overall operation time
- Simple, robust design
- Straight forward to switch between penetration and extraction
- Low Life Cycle Costs
- High efficiency

Technical Information

Drive media	Air or Steam
Max height	736 mm
Max width	500 mm
Weight	48kg
Supply connection	1/2" NPT
Discharge connection	2 " Bsp Male

Typical Scope of Supply:

1x Jetfan 85 machine

1x User operation and maintenance manual

1x Maintenance tool set with spares

1x Air hose

1x Exhaust hose

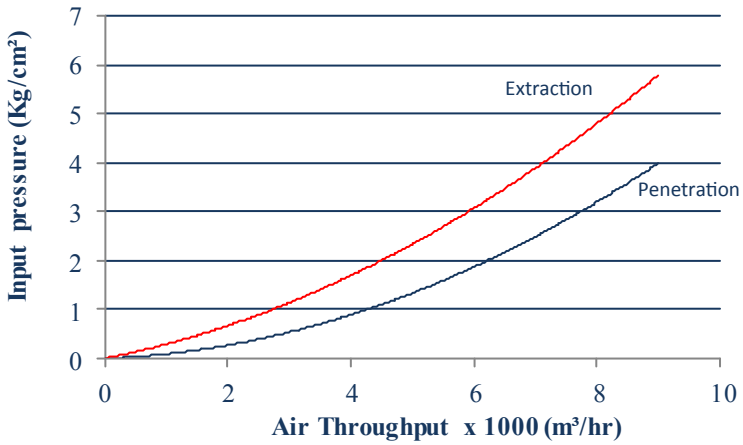

1x Flexible ducting 300mm

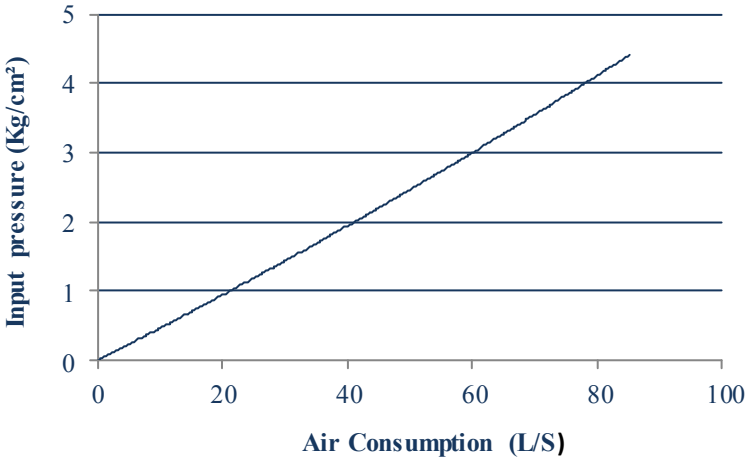

1x Trolley

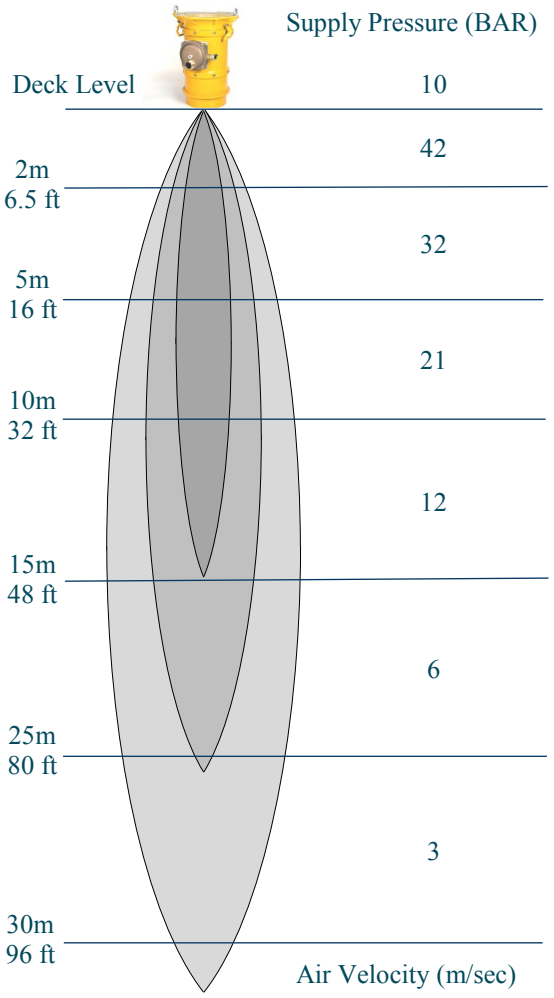

TANK CLEANING SOLUTIONS FOR EVERY INDUSTRY

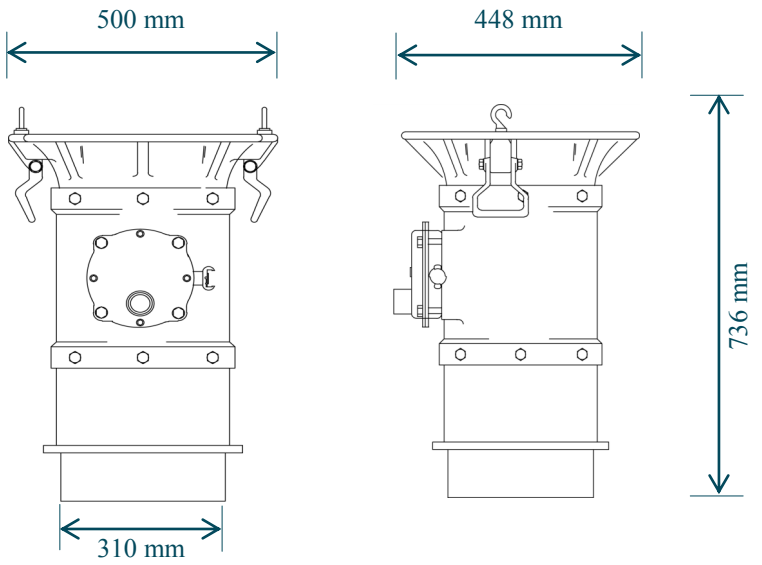

Jetfan 85
